Model Release Checklist

Use this checklist to make sure that your forms are filled in properly. Release forms are legal documents and we cannot accept them if they are not filled in correctly.

Note: *This form is for your reference and doesn't need to be submitted to Adobe Stock*

Model

☐ Print name in CAPITAL LETTERS to assure legibility
☐ Date of birth
☐ Gender
☐ Visual reference of model

Information for Model or Parent (if Model is a minor)

☐ Contact information: address, phone, and email
☐ Model or Parent signature for all minors (definition of a minor can vary from country to country. Be sure to observe the local law where the photo was taken).
  * When photographing a group, you need the names and signatures of each person on a separate release. For instance, if you photograph the football team, the coach can’t sign for the whole group.
  * If you are a parent photographing/filming your child, you must print your name and sign twice: once as the artist and once as the parent.
  * Try to get both parents to sign the release—one as the parent or legal guardian and the other as the witness. This reduces the risk that one parent will try to revoke the consent given by the other.

☐ Date signed
☐ If signed by Parent/Guardian there’s an extra field to print name in CAPITAL LETTERS

Artist Information

☐ Artist signature: indicates photographer or filmmaker (you)
  * The name of the artist must be the same as the Adobe Stock account holder name
  * Companies and agencies have the right to use different photographers/filmmakers, but in those cases, the name of the company should always appear next to the photographer or filmmaker’s name.

☐ Print Name in CAPITAL LETTERS to assure legibility
☐ Date signed must match above date

Witness

☐ Witness Signature
  * The witness cannot be the model or the photographer

☐ Print Name in CAPITAL LETTERS to assure legibility
☐ Date signed must match above dates
